RE: Letter of Completeness and Request for Additional Information; SR203/Main Street Improvements and Road Reconstruction and Improvements (SEPA15-001)

Dear Shaun:

The City of Duvall received an application packet on July 14, 2015, for the SR203 Safety Improvements and Road Reconstruction (Main Street Improvements) and has completed the review for completeness. The project has been numbered SEPA15-001. The project application submitted for review was a Construction Permit on which SEPA review is required (Type II). You were named as the project contact and will be receiving all city correspondence relating to the project. City staff has reviewed the application and determined it to be complete enough to begin processing as of August 10, 2015

The next step will be for the City to issue a Notice of Application for the proposal. The City will issue the Notice of Application (NOA) within 14 days of this Notice of Complete Application and anticipates issuing the NOA on September 1, 2015. You will be sent a copy of the notice upon issuance.

Planning completed a review of the materials submitted and has attached a review letter dated August 17, 2015. ESA and Planning completed the first review for SEPA and general planning compliance. If you have questions please let me know and we can set up a meeting. The review clocked has been stopped pending submittal of additional information outlined in the ESA letter.

We look forward to working with you on this project. Please call me at (425) 788-2779 if you have any questions.

Sincerely,

A handwritten signature in blue ink, reading 'Lara Thomas', is written over a light blue horizontal line.

Lara Thomas  
Planning Director
