

Office of the Mayor
Amy Ockerlander

Declaration of Emergency Issued June 13, 2018

Mayor Ockerlander recently declared a State of Emergency in relation to the Waste Water Treatment Plant and the Public Works Department. At this time there are no known threats to the public health, safety or welfare of the community. The City is experiencing an interim staffing shortage. The Emergency Declaration is a procedural step that allows the City to expedite decision making, purchasing and operations to ensure that our community continues to receive services in a timely fashion. Updates will be provided as The City works to address the interim staffing shortage. Please direct any questions to City Administrator, Matt Morton, at (425) 939-8091.
